

Technical Seminars Programme

27-30 June 2017, Crocus Expo

Day 1, Tuesday 27 th June 2017			
	Congress Hall 1 Hall 13	Congress Hall 2 Hall 14	Congress Hall 3 Hall 14
	Education and Careers in the Oil and Gas Industry	Development of Oil and Gas fields	Transportation and storage of oil, oil products and gas
10.30-12.30	<p>Special Event Partner: Ernst & Young</p> <p>The role of women in business: trends and prospects</p> <ul style="list-style-type: none"> ▪ <i>Worldwide trends in the advancement of female leaders and entrepreneurs</i> ▪ <i>What women entrepreneurs in Russia want</i> ▪ <i>Exchange of views and experiences</i> <p>Oksana Kondratyuk, General Director, OEK-Holding LLC Sofia Azizyan, Partner, Ernst & Young</p>	<p>Technical workshop / meeting Partner: Engineering Practice Ltd</p> <p>Flooding Prevention</p> <ul style="list-style-type: none"> ▪ <i>Design of field development systems and delivery of geological and technical measures for minimization of flooding, cone warnings</i> ▪ <i>Cementing of wells, modeling, technologies, compositions, quality control</i> ▪ <i>Identification of sources of water and profiling of well flooding: Gas measuring (GIS) and PGI, GDI, distributed measurements</i> ▪ <i>Hydrodynamic modeling, Investigation of the rates and directions of distribution of filtration flows in reservoirs, flood management, the use of flow deflecting technologies</i> <p><u>Moderators:</u> Sergey Demakhin, Technical Consultant, Zirax LLC Evgeny Belyaev, General Director, LLC Engineering practice</p>	<p>Seminar Partner: OMK</p> <p>OMK - innovative products for the oil and gas industry</p> <p><u>Moderator:</u> Sergey Chegurov, Head of Department, Work with Project Institutions and Product Development, OMK JSC</p> <p><u>Speakers:</u> Sergey Chegurov, Head of Department, Work with Project Institutions and Product Development, OMK JSC <i>OMK – complex supplier of products for oil and gas production and transportation</i> Ivan Peyganovich, Head of ITC Pipe Production Technology Department, VMZ <i>Increased corrosion resistance pipes</i> Nikolay Tanaev, Head of Marketing, Trubodetal <i>Internal and external anticorrosion coatings of SDT JSC Trubodetal, Heat insulation</i> Gennady Chashchin, Director of ITC, JSC</p>

		<p style="text-align: center;"><u>Speakers:</u></p> <p>Sergey Demakhin, Technical Consultant, Zirax <i>Problems in reducing water during production: challenges and solutions</i></p> <p>Semen Popov, Head of Waterproofing Department, LUKOIL-Engineering Perm <i>Scientific approaches to support the process of selection and adaptation of technologies at LUKOIL</i></p> <p>Pavel Khimchenko, Project Manager Rosneft PJSC Gazprom Neft, SNF Vostok <i>Polymeric waterflooding 2.0 - from science to implementation</i></p> <p>Rival Fakhretdinov, General Director of LLC IPC "KhimServiceEngineering", Doctor of chemical Sciences, prof., Valid. Member of the Russian Academy of Natural Sciences <i>Commercial solutions for the issue of flooding limitation in producing wells</i></p>	<p>Trubodetal <i>Block structures</i></p> <p>Amar Ilyasov, Sales Director, JSC "UZSA" <i>Ball valves with special properties</i></p> <p>Valery Anatolyevich Aseev, Director for Technical Development, JSC "BAZ" <i>New generation safety valves</i></p>
13:00-15:00	<p style="text-align: center;">Conference Partner: Euro-Asian Geophysical Society / EAGO</p> <p style="text-align: center;">Geo-mechanical modeling of hydrocarbon deposits</p> <p style="text-align: center;"><u>Moderator:</u> Sergei Tikotsky, Member-RAS, Doctor of Physical and Mathematical Sciences</p> <p style="text-align: center;"><u>Speakers:</u> Sergei Tikhotsky, Member-RAS, Doctor of Physical and Mathematical Sciences, Director of IPP RAS <i>Seismic and laboratory studies as a basis for geo-mechanical modeling of hydrocarbon deposits</i></p> <p>Igor Garagash, Doctor of Physical and Mathematical Sciences, Head of Laboratory. IPP RAS <i>Geo-mechanical modeling of the</i></p>	<p style="text-align: center;">Technical workshop / meeting Partner: Engineering Practice Ltd</p> <p style="text-align: center;">Flooding Prevention (Continued)</p> <p>▪ <i>Inflow control and limitation of water inflow during operation of wells after multi-stage fracturing</i> ▪ <i>Selective water intake insulation, fluid loss control agents</i> ▪ <i>Results of FPI and experience in the use of inelastic gels, viscoelastic compositions, polymer-based hydrocarbon-based suspensions, water-absorbing, silicate-helium and sediment-forming compositions</i> ▪ <i>Tamponing, technologies, PIU of oil wells for RIR, development and testing of new equipment</i></p> <p>Rustem Nafikov, Head of Well Bracing Department, OOO LUKOIL-Engineering</p>	<p style="text-align: center;">Roundtable Partner: NII Transneft</p> <p style="text-align: center;">Ensuring the reliability and safety of pipeline transport facilities</p> <p style="text-align: center;"><u>Moderator:</u> Nikolai Makhutov, Member of the Russian Academy of Sciences, Doctor of Technical Sciences, Professor</p> <p style="text-align: center;"><u>Speakers:</u> Nikolai Makhutov, Member of the Russian Academy of Sciences, Doctor of Technical Sciences, Professor <i>Scientific, technical, socio-economic and legal aspects of the reliability of transport of oil and oil products</i></p> <p>Evgeny Zorin, Ph.D., Chief Scientific Researcher, Research Institute of Transneft <i>Methodology for assessing the technical condition of tanks based on new approaches to</i></p>

	<p><i>evolution of pore pressure and the stress-strain state of the sedimentary strata using the backstroke analysis</i> Nikita Dubinya, Lead Engineer, IPP RAS <i>Structural features of the rock massif as a source of information on its condition</i></p>	<p><i>Prevention of premature watering of the well with compositions with organosilicon compounds during primary cementing</i> Alexey Orlov, Chief Technologist – Samara branch, LLC SNK <i>Development and optimization of RIR technologies" SNK "LLC</i> Sergey Demakhin, Technical Consultant, Zirax LLC <i>RIR and ORP technologies of the Zirax group of companies</i> Toma Antoine, Technical Consultant, SNF SAS <i>Flow and deviation of water: technology overview</i></p>	<p><i>determining the timing of their safe operation</i> Yuri Matvienko, Doctor of Engineering Science, Professor, Head of the Department <i>Two-parameter fracture mechanics in pipeline transportation</i></p>
<p>15:30-17:30</p>	<p style="text-align: center;">Conference Partner: Euro-Asian Geophysical Association/ EAGO</p> <p style="text-align: center;">Geo-mechanical modeling of hydrocarbon deposits (continued)</p> <p style="text-align: center;"><u>Moderator:</u> Sergei Tikhotsky, Member-RAS, Doctor of Physical and Mathematical Sciences</p> <p style="text-align: center;"><u>Speakers:</u> Lidia Sim, Doctor of Geological and Mineralogical Sciences, Ph.D. IPP RAS <i>The possibilities of using seismic materials in the structural-geomorphological method of stress reconstruction</i> Natalia Zavyalova, Candidate of Philological Sciences, Ph.D. MIPT <i>Modeling of hydraulic fracturing and MGRP</i> Sergey Turuntayev, Doctor of Physical and Mathematical Sciences, Director</p>	<p style="text-align: center;">Technical workshop / meeting Partner: Engineering Practice Ltd</p> <p style="text-align: center;">Flooding Prevention (Continued)</p> <p>▪ <i>Solutions to prevent water inflow after fracturing near water-saturated formations</i> ▪ <i>Treatment of injection wells</i> ▪ <i>Repair and Insulation Work (RIR) / Liquid elimination (LNE) technologies and Training and Development of Staff (ORP); method selection, experience and new developments in downhole equipment and tools</i> ▪ <i>Import substitution</i></p> <p>Alexander Glukhoded, Operations sector manager, Well operations and repair department, TatNIPIneft institute PJSC "Tatneft" <i>Technical tools and technologies for capital strings hermetization</i> Roman Tabashnikov, Deputy Director for technologies, "TAGRAS REMSERVIS" LLC <i>New technological solutions for repair and</i></p>	<p style="text-align: center;">Roundtable Partner: Transneft</p> <p style="text-align: center;">Current issues of construction and operation of pipeline transport facilities</p> <p style="text-align: center;"><u>Moderator:</u> Anatoly Korolenok, Doctor of Technical Sciences, Professor Russian State University of Oil and Gas (NIU) Gubkin</p> <p style="text-align: center;"><u>Speakers:</u> Andrei Kudritsky, Ph.D., Head of Software Development, Transneft <i>New approaches to increasing the efficiency of main oil pipelines using automated software</i> Alexei Lysenko, Regional Sales Manager, Valco Group <i>Safety of oil tanks</i> Leonid Mogilner, Ph.D, Chief Researcher, LLC NII Transneft <i>Complex control and diagnosis of the technical condition of pipelines and metal structures</i> Danil Dolgopolov, Ph.D, Head of the Laboratory of Database Management of Geotechnical Monitoring Results, LLC "NII</p>

	<p>of the Institute of Pedagogical Sciences of the Russian Academy of Sciences Maria Trimonova, Ph.D. <i>Physical modeling of hydraulic fracturing in conditions of varying stress state of reservoirs</i> The Society of Exploration Geophysicists / SEG, Senior Representative</p>	<p><i>insulation works realized in TagraS-RemServis</i> Rustem Kateev, Head of well casing laboratory, TatNIPIneft institute PAO, "Tatneft", PhD <i>Well casing renovation in PJSC "Tatneft"</i> Marat Aminev, Owner's adviser, NPF "PAKER" LLC <i>Flooding Prevention in exploitation wells using manufacturing methods</i></p>	<p>Transneft" <i>New possibilities for geotechnical monitoring of pipeline systems using GIS technologies with the possibility of 3D visualization</i></p>
--	---	--	---

Day 2, Wednesday 28th June 2017			
	Congress Hall 1 Hall 13	Congress Hall 2 Hall 14	Congress Hall 3 Hall 14
	Oil and Gas Exploration	Development of Oil and Gas fields	Transport and storage of oil, gas and refined products
10:30-12:30	<p>Training course Partner: European Association of Geoscientists and Engineers / EAGE <u>Lecturer:</u> Anatoly Cherepovsky, Ph.D. Member of EAGE, SEG and EAGO <i>Land seismic - new technology levels</i></p> <p>About the course: The success of applying geostatistics as a traditional tool for modeling oil and gas reservoirs is due to the ability to present realistic geological features in the form of a numerical mathematical model. How to choose the most suitable model? What conditions are imposed by statistical models on geological environments described? Why do we need a variety of geostatistical algorithms and their further</p>	<p>Round Table Partner: Associations of Drilling Contractors New solutions for drilling and oilfield services in modern realities <u>Moderator:</u> Valery Bessel Executive Vice President, GC "NewTechServices", Professor of the Gubkin Russian State University of Oil and Gas (National Research University)</p> <p><u>Speakers:</u> Alexander Oganov, General Director, Association of Drilling Contractors Vladimir Basovich, General Director, Aquatic-BT LLC <i>Prospects for the use of aluminum drill pipes for drilling of long wells</i> Denis Makhmutov, Deputy Director General for Strategic Development - Commercial</p>	<p>Round table Partner: Independent Analytical Agency for Oil and Gas Sector LLC Terminals for shipment of oil, oil products and LNG: current situation and prospects • <i>Estimation of oil, oil products and LPG loading during the crisis period</i> • <i>Competitiveness indicators of Russian oil terminals using settlement indicators</i> • <i>Potential cargo routes for export of petroleum products and petrochemicals through sea terminals</i> • <i>Prospective oil cargo flows in Russia</i></p> <p><u>Moderator:</u> Tamara Safonova, Executive Director, Independent Analytical Agency of Oil and Gas Sector, Ph.D.</p> <p><u>Speakers:</u> Mikhail Temnichenko, First Vice-President, St. Petersburg International Mercantile Exchange Vladimir Nazarov, Deputy Vice President, PJSC</p>

	<p>development, and which one to choose in a particular case? How much does the resulting stochastic model correspond to the expected geological and dynamic characteristics of the reservoir? Stochastic models are created to predict the dynamics of oil and gas reservoirs. What is a reliable forecast? How to choose a model for forecasting? What uncertainties can influence the forecast and how to take them into account? These and other issues are discussed in a new book – “Challenges and Solutions in Stochastic Reservoir Modeling: Geostatistics, Machine learning, Uncertainty Prediction” and will be covered in a short course on forecasting modeling. The course combines a lecture with practical material, allowing participants to analyze data themselves and find answers to the issues outline above.</p>	<p>Director, OOO NPP "BURINTEH" <i>Drill casing tools and equipment for their descent</i> Vladimir Tashlykov, Technical Director, Samotlorneftepromkhim JSC <i>Experience and drilling contractor proposal</i> Sergei Fedorov, Doctor of Technical Sciences, Professor of Moscow State Technical University in the name of Bauman, Head of Tribological Testing, JSC "Siberian Service Company" <i>Tests results of wear-resistant surfacing for drilling locks</i> Dmitry Mayevsky, Deputy Head of Well Construction and Well Repair Department of Well Technology and Service Management, Belorusneft <i>Construction experience of multi-hole wells of the IV level of complexity in RUE" PA Belorusneft</i> Vadim Kuchkov, Director of Business Development, Welltec <i>Welltec Robotic Technologies for eliminating drilling accidents</i></p>	<p>Transneft Yury Shcherbanin, Doctor of economic Sciences, Head of the Department, Oil and Gas Trading and Logistics , Gubkin Russian State University of Oil and Gas Sergey Kondratiev, Deputy Head of the Economic Department , Institute of Energy and Finance Sergey Lukyanov, Director, Blue Line International LLC Serrikali Murinov, Chief Engineer, ZAO "KTK-R" David Avalishvili, Vice-President - Director of Department for Advanced Projects and Services, RussNeft Eduard Baranov, Head of the Department for Development of Transport and Logistics Assets and Increasing Efficiency, LUKOIL-Trans Roman Mezhlumyan, Ph.D., Head of the Monitoring and Analysis Department, PKU Directorate of State Customer of Maritime Transport Development Programs</p>
13:00-15:00	<p>Lecture Partner: European Association of Geoscientists and Engineers / EAGE</p> <p><u>Lecturer:</u> Anatoly Cherepovsky, Ph.D. Member of EAGE, SEG and EAGO <i>Land seismic - new technology levels (continued)</i></p>	<p>Conference Partner: Associations of drilling contractors Construction and operation of oil and gas wells on land and offshore</p> <p>Technical Section 1: Horizontal and multi-hole drilling</p> <p><i>Geonavigation ▪ well completion▪ Investigation of reservoir properties ▪ Sidetracking</i></p> <p><u>Moderators:</u> Vladimir Sledkov, Head of Drilling and Completion Technologies Department, LUKOIL-Engineering</p>	<p>Round Table</p> <p>Russian LNG Projects: Technologies and Markets</p> <ul style="list-style-type: none"> • <i>LNG projects and their competitiveness in foreign markets</i> • <i>Low-tonnage LNG - development of domestic markets and export technologies</i> • <i>LNG bunkering and LNG as motor fuel.</i> <p><u>Moderator:</u> Maria Andreevna Belova, Research Director, Ph.D., VYGON Consulting</p> <p><u>Invited Speakers:</u> Maxim Lobanov, Deputy Head, Department of Oil</p>

		<p>Mikhail Gelfgat, Professor, Department of Oil and Gas Wells Drilling, Gubkin Russian State University of Oil and Gas</p> <p style="text-align: center;"><u>Invited Speakers:</u></p> <p>Sergey Kolbikov, Head of the Department for Forecasting and Monitoring of Field Development, NOVATEK <i>Complex approach in the planning and geo-navigation of horizontal wells</i></p> <p>Pavel Arzumanyan, Deputy Head of the Center for Geological Drilling Supervision, Gazpromneft <i>Approaches to the organization of integrated drilling support processes</i></p> <p>Alexander Milenky, Deputy Director for Drilling of ARKTIKGAZ <i>Concepts of construction technologies and completion of complex horizontal wells in the Western Siberia region</i></p> <p>Ildar Kunakkuzhin, Ph.D., Chief Geo-Navigation Specialist, NewTech Services LLC <i>Methodology of proactive geo-navigation based on the image of resistances</i></p> <p>Alexander Novoselov, Head of Production and Technology Services Schlumberger, <i>Positive experience in the construction of multi-hole wells with a large waste in the Northern Caspian</i></p> <p>Edward Bikchandaev, Business Development Director, Scientific Drilling International LLC <i>Modern gyro technology to reduce geological and technological risks and uncertainties in drilling wells</i></p>	<p>and Gas Processing, Ministry of Energy of the Russian Federation</p> <p>Gazprom Gazenergoset JSC, Senior Representative</p> <p>Kirill Lyats, General Director of the company SPG-Gorskaya</p> <p>Alexander Klimentyev, Advisor on Arctic LNG projects of the World Wildlife Fund <i>Perspectives and possibilities for LNG use for bunkering in Russian Arctic regions. WWF Russia view</i></p> <p>Elena Fedorova, Executive Director of REC LNG and PNG Technologies, Deputy Head of Oil and Gas Processing Equipment Department, Gubkin Russian State University of Oil and Gas Ph.D., Associate Professor <i>The role of low-tonnage LNG in the development of regions of the Russian Federation</i></p> <p>Sergey Meshkov, Director of Engineering Center, REP Holdings <i>New Russian Technologies. Equipment "REP Holding" for LNG projects "</i></p> <p>Steve Wildman, Director, LNG Development Siemens <i>Modern solutions for LNG equipment</i></p> <p>Andrei Konoplyanik, Professor, Adviser to the General Director of OOO Gazprom Export</p> <p>Dzhinsok Sun, Researcher, RGU ,Gubkin State University of Oil and Gas <i>Diversification American style : the competition between two models of LNG pricing and its implications for the EU and the export of Russian gas to Europe</i></p>
--	--	--	---

<p>15:30-17:30</p>	<p>Lecture Partner: European Association of Geoscientists and Engineers / EAGE</p> <p><u>Lecturer:</u> Anatoly Cherepovsky, Ph.D. Member of EAGE, SEG and EAGO <i>Land seismic - new technology levels</i> (continued)</p>	<p>Technical Section 2: Construction of wells in the fields with hard-to-recover reserves with TRIZ Theory of Inventive Problem Solving</p> <p><i>Multi-stage hydraulic fracturing ▪ Development methods ▪ Completion systems ▪ Equipment and technologies for operation</i></p> <p><u>Moderator:</u> Anton Ablaev Regional Director of the SPE Society, Society of Engineers of the Oil and Gas Industry SPE</p> <p><u>Speakers:</u> Mikhail Samoilov, Head of Engineering Support Department, Rosneft <i>Multistage hydraulic rupture of the Tyumenformations of the Yem-Yeghovskoye field. Approaches to planning, design and execution of works</i> Dmitry Zadvorov, Experts of the Center for Integrated Solutions for Well Construction, Schlumberger <i>Experience in the construction of sub-horizontal wells with the use of the latest technologies for the Achimov deposits</i> Anton Ablaev, Regional Director of the SPE Society, Society of Engineers of the Oil and Gas Industry SPE <i>Experience of increasing the productivity of gas condensate wells in low-permeability reservoirs by more than 30%, due to integrated well construction and comp</i> Ilkam Mukhametshin, Regional Director Russia and CIS, RESMAN <i>Wireless exploration of wells through intelligent markers. Practical examples of the assessment of the effectiveness of the MHRU</i> Anton Filimonov, Leading Petrophysicist, GIS&TAC</p>	<p>Round table Partner: International Institute of Chemistry of Modern Economy</p> <p>Chemicalization, clusterization and high redistribution of the Russian oil and gas sector</p> <p><u>Moderator:</u> Valery Meshalkin, Scientific Director of the Institute of Chemicalization, Academician of the Russian Academy of Sciences, Doctor of Chemical Sciences, Professor, Director of MI-LRTI, Head of the Department of Logistics and Economic Informatics</p> <p><u>Speakers:</u> Valeriy Babkin, President, International Institute of Chemistry of the Modern Economy, Ph.D., Professor <i>The concept of chemicalization of the modern Russian economy</i> Valery Meshalkin, Scientific Director of the Institute of Chemicalization, Academician of the Russian Academy of Sciences, Doctor of Chemical Sciences, Professor, Director of MI-LRTI, Head of the Department of Logistics and Economic Informatics"; DI. Mendeleyev' <i>Latest increases in the energy efficiency of production and supply chains in the oil, gas and petrochemical industry</i> Vadim Vollert, Senior Account Manager / Refining and Petrochemicals, IMI Z and J <i>Combining tradition and efficiency in the creation of equipment for heavy-duty applications</i> Benoit Crespi, Business Development Manager, Guichon (Valco Group) <i>Visbreaking, thermo cracking and coking prevention</i> Andrey Mikhailichenko, Director of the program for pumps for oil and gas processing SSTC, JSC GMC Livgidromash, a Division of Industrial pumps</p>
--------------------	---	--	---

	<p>Department, Schlumberger <i>Review of modern GIS methods for detailed study of complex reservoirs</i> Alexander Ivashov, Leading Specialist in Technical Sales, NPP OZNA-Engineering <i>Block-modular oil treatment unit (MUPN) within the framework of the concept of field development with TRIZ</i></p>	<p>Group HMS <i>New lines of centrifugal process pumps of HMS Group (of API standard) for oil and gas processing</i> Olga Krasilnikova, Head of Industry, LLC Parker Hannifin <i>Advanced transportation technologies in the oil and gas industry</i></p>
--	---	---

Day 3, Thursday 29th June 2017					
	Congress Hall 1 Hall 13	Congress Hall 2 Hall 14	Congress Hall 3 Hall 14	Hall RPGC 1 Hall 13	Hall RPGC 2 Hall 13
	Oil and Gas Exploration	Development of Oil and Gas fields	Oil and Gas Refining and Petrochemicals	Education and Careers in the Oil and Gas Industry	Industrial, environmental and fire safety. Occupational Safety and Health
10:30-12:30	<p>Lecture Partner: European Association of Geoscientists and Engineers / EAGE</p> <p><u>Lecturer:</u> Anatoly Cherepovsky, Ph.D, Member of the EAGE, SEG and EAGO <i>Land seismic - new technology levels</i></p>	<p>Conference: Partner: Associations of drilling contractors</p> <p>Construction and operation of oil and gas wells on land and offshore</p> <p>Technical Section 3: Construction and operation of wells in complicated mountain-geological and natural climatic conditions</p> <p>▪ <i>Technologies, equipment and solutions for operation in conditions of increased H2S and CO2 content</i> ▪ <i>Technology of well drilling</i></p>	<p>Seminar: Partner: Yokogawa Electric Corporation</p> <p>Vertical and horizontal information integration: example from the oil refining and petrochemical industries</p> <p><u>Moderator:</u> Denis Ryzhov, Director of the Center for Solutions, LLC Yokogawa Electric CIS</p> <p><u>Speakers:</u> Yury Novik, Gazprom Neft <i>Vertical and horizontal information integration for projects</i></p>	<p>Round table</p> <p>Localization of production of oil and gas equipment in Russia: new opportunities for the industry</p> <p><u>Moderator:</u> Edmund Ongemakh, Director for Science, Innovative Development Rosgeologiya JSC</p> <p><u>Invited speakers:</u> Vadim Romanov, Deputy General Director, NOV-Kostroma <i>NOV-made in Russia ... plans for localization and import substitution in Russia</i></p>	<p>Round table Partner: Dräger</p> <p>Wireless technologies in systems for the detection of explosive gases</p> <p><u>Moderator:</u> Dmitry Mostyko, Sales Specialist (Gas Analysis), Dräger</p> <p><u>Speakers:</u> Dmitry Mostyko, Sales Specialist (Gas Analysis), Dräger <i>Dräger gas analysis technologies: international experience, the future!</i> Masayasu Sano, Wireless</p>

		<p><i>and fastening under conditions of absorption</i></p> <p><u>Moderators:</u></p> <p>Evgeny Tikhonov, Technical Manager, Halliburton</p> <p>Dmitry Krepostnov, Project Manager, Rosneft</p> <p>Vladimir Slavich, Business Development Manager, Halliburton</p> <p><u>Invited Speakers:</u></p> <p>Evgeny Kambulov, Director of Drilling Fluids Department, Ph.D., Korteks Service LLC</p> <p><i>Problems of servicing drilling fluids under import substitution</i></p> <p>Mitalim Gaidarov, Head of Special Fluid Processes for Drilling and Well Repair, Gazprom VNIIGAZ</p> <p><i>New systems of cationic drilling fluids (Kutburr) for construction Wells in difficult geological conditions</i></p> <p>Oleg Mironov, Technical Manager for Western Siberia, Halliburton</p> <p><i>Development and selection of drilling fluid formulas for exploratory well wiring in the Taimyr Peninsula</i></p> <p>Alexey Fomenkov, Lead Cementing Engineer, Halliburton</p>	<p>Denis Ryzhov, Yokogawa Electric CI</p> <p><i>A unified information environment for enterprise management</i></p> <p>Azat Bagdanov, Yokogawa Electric CIS</p> <p><i>Asset management and equipment life cycle</i></p> <p>Alexei Kozin, LLC</p> <p>Yokogawa Electric CIS</p> <p><i>Integrated approaches to planned and statistical-based production management</i></p> <p>Isaak Levin, KBC Process Technology</p> <p><i>Building an integrated production model based on KBC solutions</i></p>	<p>Oleg Zhdaneev, Head of Oil and Gas Equipment Production Department, Schlumberger</p> <p><i>“Schlumberger” - made in Russia</i></p> <p>Alexander Yarov, Technical Director, LLC Gusar</p> <p><i>Localization of production of oil and gas equipment in Russia: new opportunities for the industry</i></p> <p>Ivan Sergeev, Analytics, estimation and construction sector manager, OAO NPO Drilling Engineering-VNIIBT</p> <p><i>New developments of special downhole equipment for the construction of oil and gas wells</i></p> <p>Pavel Blinov, Head of Service and Testing Department, Geosvip</p> <p><i>Import substitution in seismic prospecting technologies.</i></p> <p>Timur Ishmeev, Schlumberger</p> <p><i>Expandable repair steel patches for liquidation of leakage of casing and production columns</i></p>	<p>Product Specialist, Yokogawa Electric</p> <p><i>Wireless technologies and solutions: the experience of Yokogawa Electric</i></p> <p>Jorgen Sware, Executive Director, GasSecure</p> <p><i>New technologies of gas analysis. Wireless solutions. Sensor Dräger GS01</i></p> <p>Jorgen Sware, Executive Director, GasSecure</p> <p><i>Examples of implementation of wireless systems for gas analysis. Customer Experience.</i></p> <p>Dmitry Mostyko, Sales Specialist (Gas Analysis), Dräger Russia</p> <p><i>Examples of the implementation of wireless systems for gas analysis. Customer Experience</i></p>
--	--	--	--	--	--

		<p><i>Sentinel technology for removal of drilling fluid during drilling</i></p> <p>Pavel Dobrokhleb, Drilling services engineer, Schlumberger</p> <p><i>Drilling with controlled pressure as an effective solution for drilling wells in conditions of catastrophic absorption in fractured reservoirs</i></p>			
13:00-15:00	<p>Lecture Partner: European Association of Geoscientists and Engineers / EAGE</p> <p><u>Lecturer:</u> Anatoly Cherepovsky, Ph.D., member of the EAGE, SEG and EAGO <i>Land seismic - new technology levels</i> (Continued)</p>	<p>Conference Partner: ICoTA / Intervention & Coiled Tubing Association</p> <p>Coiled Tubing and Fracturing Technology</p> <ul style="list-style-type: none"> • <i>Coiled tubing technologies</i> • <i>Topical technologies of hydraulic fracturing (Hydraulic fracturing in horizontal wells, plus fracturing, fracturing with nitrogen, use of coiled tubing during fracturing, large-volume fracturing, plus other types of fracturing, etc.)</i> • <i>Radial opening of seams</i> • <i>Downhole tools for high-tech work</i> <p><u>Moderator</u> Konstantin Burdin, Chairman, Russian branch of ICoTA (ICoTA-Russia)</p>	<p>Round table Partner: COMNEWS</p> <p>Digital factories: from the industrial «Internet of stuff» to management of economic parameters</p> <p><u>Speakers:</u> Dmitry Chernokozinsky, Head of Flow Analysis, Modcon Systems LTD</p> <p>Anton Razumov, Architect of Information Security Systems, Check Point</p> <p><u>IT-directors from:</u> PJSC SIBUR HOLDING Surgutneftegas PNOVATEK Rosneft Tatneft RUSSNEFT LUKOIL Automation-service Gazprom automation</p>	<p>HR Panel Discusion Partner: Samolov Group</p> <p>Personnel for the oil and gas Industry</p> <ul style="list-style-type: none"> • <i>Attraction and retention of young specialists</i> • <i>Cooperation with educational institutions</i> • <i>Career path for young people</i> <p><i>Specialists</i></p> <ul style="list-style-type: none"> • <i>Features of working with young specialists</i> <p><u>Moderator:</u> Ivan Samolov, Commercial Director, Samolov Group</p> <p><u>Participants</u> Mikhail Silin, Vice-Rector for Innovation and Commercialization of Research, Gubkin State University of Oil and Gas Igor Plotnikov, Deputy</p>	<p>HSE Round table Partner: Ernst & Young</p> <p>Proactive Risk Management in Industrial Safety, Labor Protection and the Environment</p> <ul style="list-style-type: none"> • <i>Difficulties and opportunities for the transition to a conscious security culture and its benefits for business</i> • <i>Building management processes and management systems to minimize risks and gain benefits from effective management</i> • <i>Use of data for risk assessment and management</i> <p><u>Moderator:</u> Sergey Daiman, Senior Manager, Ernst & Young</p>

		<p><u>Invited Speakers:</u> Sergey Klochkov, Head of Department, RIT BelNIPIneft RUE <i>Actual technologies for the application of a flexible pipe for development and exploration of wells, RUE, Belarusneft</i> Sergey Tereshko Leading Design Engineer, Novelty <i>Directional coiled tubing drilling</i> Konstantin Burdin, Schlumberger <i>Effective technologies of the MGRP: MGRP system with closed couplers - Premium Port</i> Alexey Tsimanovich, Head of CIT Marketing Department (joint project), FID Group <i>Management system of the hydraulic fracturing fleet. VisualFrac</i> Sergey Atrushkevich Chief Designer - First Deputy Director SZAO Novinka <i>Ejection well cleaning. Experience of application</i> Sergey Vereshchagin, Schlumberger <i>Intensification of Carbonate Collectors - OpenPath Service</i> Arkadiy Golub Account Manager</p>		<p>General Director for Human Resources Management, OOO LUKOIL-PERM Valentin Kramar, Deputy General Director for Personnel, Gazprom dobycha Yamburg Sergey Borisevich, Head of HR Department, GAZPROMNEFT-KHANTOS LLC Evgeny Politov, Director, Private Enterprise Gazprom Corporate Institute Vitaly Avvakumov, Deputy General Director for Personnel and Organizational Development, Lukoil-Engineering</p>	<p><u>Speakers:</u> Tatiana Bobrovitskatya, Shell E&P Services <i>Leadership and safety culture for risk normalization</i> Olga Semak, Gazprom Neft, <i>Evaluating the level of safety culture in the industry</i> Vladislav Gorbachev, ERIELL <i>Managing the risk of sub-contractor</i> Sergey Daiman, Senior Manager, Ernst & Young <i>Quantitative assessment of risks of HSE to improve the quality of management and integration into the corporate risk management system</i> Information systems in industrial safety, labor and environmental protection: functional, choice and implementation <ul style="list-style-type: none"> • Experience in the use of specialized information systems • Problems and advantages of different solutions </p>
--	--	---	--	---	---

NOV Russia & CIS
*Solutions for optimizing
the completion process*

Moderator:
Sergey Daiman, Senior
Manager, Ernst & Young

Speakers:
Sergey Daiman, Senior
Manager, Ernst & Young
*Review of the functional
capabilities of
information systems in
the field of HSE*
Olga Semak, Gazprom
Neft
*Evaluation of
effectiveness of subsidiary
organizations in terms of
advanced and lagging
safety indicators*

Elena Komarovskaya,
SAP

Anna Rtisheva, Emex
*Preconditions for the
successful
implementation of HSE
projects. Russian and
international experience*

Alexander Panasenko,
1C-KCY

*Opportunities and
experience of projects for
building information
systems of PB, OT and EP
on the platform" 1C:
Enterprise*

Andrey Afanasyev,
Gazprom Automation
*Integrated automation of
industrial and fire safety,
labor and environmental
protection*

<p>15:30-17:30</p>	<p>Lecture Partner: European Association of Geoscientists and Engineers / EAGE</p> <p><u>Lecturer:</u> Anatoly Cherepovsky, Ph.D., member of the EAGE, SEG and EAGO <i>Land seismic - new technology levels</i> (Continued)</p>	<p>Technologies and equipment for high-tech oil and gas service (Continued)</p> <ul style="list-style-type: none"> • <i>Sidetracking</i> • <i>New methods of enhanced oil recovery</i> • <i>Fishing chemistry for high-tech oil and gas service (reagents and materials for fracturing, compositions for PNP, compositions for RIR, etc.)</i> <p><u>Moderator:</u> Konstantin Burdin, Chairman of the Russian branch of ICoTA (ICoTA-Russia)</p> <p><u>Invited Speakers:</u> Pavel Egorov, Doctor of Engineering Science, General Director for Russia and CIS countries, SHINDA CREATIVE OIL & GAS EQUIPMENT CO. LTD <i>Cost-effective flexible tubing for demanding applications in the oil and gas industry</i> Konstantin Burdin, Schlumberger <i>New technologies for insulation work on coiled tubing with the use of extensible patches</i> Ruslan Igilov, Commercial Director of Tekhnostroilasing LLC</p>		<p>Training Forum Partner: Samolov Group Experiencing tough negotiations</p> <p><u>Trainers:</u> Tatyana Evstigneeva, Business coach, Samolov Group Ekaterina Bologova, Business coach, Samolov Group</p>
